THE DAILY SENTINEL. BUFUS KING & WM. H. WATSON, PROPRIETORS, Vador the Name and Firm of Bufus King & Co.

MILWAUKEE: Tuesday Morning, April 28.

For Liverpool Direct! Capt. Pizzez, who commanded the schooner Dean Richmond, on her Liverpool voyage, last year, from Milwaukee to Liverpool, with a cargo of 385 tons, at Cleveland, designed for the same trade. The builders, QUAYLE and MARTIN, intend that this versel shall be the finest and fastes! of her class, and, under the instructions of Capt-Pizzes, will spare neither pains, nor expense, to make her A No. 1, in every respect. She is to be ready for sea by the 15th of June, and Capt. PIERCE intends to bring her to Milwaukee and take in a sarge of the best Wisconsin Wheat .--He hopes to get away by the 1st of July, and to the official papers, was legal and valid. There reach Liverpool by the 15th of August, and he can be no question about it; the Charter exwants to secure a return cargo to this port. As pressly forbidding such an arrangement. there are many of our Merchants who import their goods direct from Liverpool, we suggest this matter for their consideration. Our Wholesale Crookery Houses, in particular, it seems to us, would make a good thing, by ordering their summer and fall purchases to be shipped by Capt. Pirror's vessel. For not only will they thereby save two, or three transhipments at New York, Albany and Buffalo and thus diminish the risk of breakage, &c; but they will actu ally save time and cost. Capt, Pigger intendto christen his new bark the C. J. Kersham, after a well-known and highly esteemed produce dealer; and as she will be a most creditable specimen of our Lake Marine, and is to take her first cargo from this port, we hope that our Merchants will provide her with a full return freight. The direct trade between Liverpool and Milwau kee, thus inaugurated, will give a new impulse to the Commercial prosperity of our fair young

After the publication of Judge Black's opin After the publication of study states. W. Thompson drew no more money from the Treasury than Congress had appropriated to him, the Sentinel, without alluding to the facts, pronounces the payment of the money by the Secretary of the Treasury as "fraudulent." Will not the Sentinel Treasury as "ranductors inform us why it was wrong to pay an appropriation made by Congress? Appropriating the money may have been wrong, but the payment of the sum appropriated was clearly right. How could it be avoided?—News, of yesterday.

How was it "avoided" The "appropriation" passed Congress two years ago, but so rank and manifest was the outrage, that even the Pigger administration could not wink at it, and the President, under the advice of Attorney General: CCaning, stopped the payment. Among the very first acte, however, of the new administration was the allowance and payment of this fraudnient claim of forty thousand dollars; and the inference is irresistible that the money was paid to DIOR Thompson, not for any service rendered to the Menomonce Indians, but for dirty work done for Buchanan & Co., during the last campaign in Indiana.

## A Fro-Sinvery Lamen.

The Leavenworth (Kansas) Journal, orgin of the tham Democracy and champion of the Buchanna administration, thus grouns over the result of the recent election in Leavenworth City: The election for Mayor of this city, on Monday last, resulted in favor of Henry J. Adams, the nominee of the Black Republican party. The polls stood as follows :

Adams' majority......224 Several causes conspired to bring about this

result, the principal of which was, want of union the Democratic party.

The Irish and Dutch votes were thrown in favor of the Black Republican candidate. Pains had been taken to buy up the foreign vote and gull the Irish and Dutch by the opposite party. A large majority of the electors of the present Mayor.—Henry J. Adams—are uneducated, and many of them unnaturalized foreigners. A six months residence previous to the election is reof the Black Republican candidate. Pains

would, if it could, disfranchise them. So it is

with Sham Democracy everywhere. The three instances in which Mr. Bu-chanan has rewarded his national whig support-ers are, James B. Clay, appointed to the charge-ship to Berlin, which, however, he declined; Wil-

liam Read, appointed Minister to China, and Mr. Reacher, of North Carolina, appointed Governor of New Mexico.—Exchange paper. One other "instance" deserves to be recorded. Dick Thompson, of Indiana, renegade whig and rempant Know-Nothing, has received from Mr. Buchanan forty thousand dollars, ostensibly for services to the Menomones Indians (which:

Lake Eric and Lake Hichigan Transit Ship Canal Company.

Among the most important of the acts passed by the New York Legislature the last work of its session, is the act of incorporation of the above Company. The object of this Company is the built of the company is its session, is the act of incorporation of the above Company. The object of this Company is to build a ship canal from some point on Lake Michigan, probably New Buffalo, through the southern portion of this State, to Lake Erie, shortening the route of the western produce to market, by hundreds of miles, doing away with the perilous navigation of the Straits of Mackinac, upper Lake Michigan, Lake Huron, and the St. Olair Flats, thus diminishing a thousand fold, the perils of lake navigation. The project is perfectly feasible—rendered so by the clevation of Lake Michigan above Lake Erie, the nature of the soil, and the generally even face of the country through which the Canal is to be censtructed. The shortening the trip for rail ves sels between Chicago and Buffalo by this new route, will be from six to ten days. The enterprise of many of the business men of Huffalo is already enlisted in the undertaking, and many ready enlisted in the undertaking, and many who once despaired of the completion of the Welland Cauel, sow feel confident that this new channel of commerce will be constructed and in beneficiant use in five years.—Detroit Advertiser.

The project above alluded to is a gigantic one indeed, and such a canal would be of immense advantage to the interests of the Lake commerce, under many circumstances. The shortening of time in the trip would be very greet, and time is noney. If the harbor at Buffulo is to be as late in opening henceforward, as for two years past, wo shall gain a couple of weeks, or more, of navigation in the spring.

But the cost of such a canal would be immense. and pretty large talls would have to be levied to support it. These tolls, taken out of the freight money of a vessel, when rates of freight are as ow as now, or much lower, as is frequently the ase, would est terribly into the profits of the

HARDWARE. NO BLAZE! NO BURNT STEAKS!

No Smoky Kitchen! ROBINSONS DOWNWARD DRAFT GRID IRON.

The author of the above lines should surchase one of Robinson's Grid Irona, and the poor Bridget would have something on which she could cook a steak as it should he. [From the Beston Advertiser.]
A good beef-steak, well cooked, so sitour appears in
the line of most men's liver, that we think a very great
advance has been made in a vilication by the introduction of a new yeldrion, which enables even a stupid attentiant to cook a study perfectly well. So great is the
advance, that we gladly call to it the attention of our
greature. caders.
This n w gridicen accomplishes three deciderate:
1. It saves all the gravy of the meat, none dropping the fire. It cooks the steak through, without burning the outie. 3. It provents the passage of any smoke into the kitch n or lours. The grand result, as we are made certain by the judy rent of many experts, as well as our own more failable aste, is, that with less trouble, ment is broiled better that

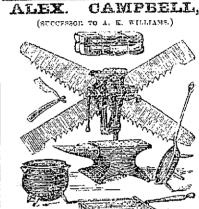

ver before.
